GCE Advanced Subsidiary Level and GCE Advanced Level

MARK SCHEME for the May/June 2011 question paper for the guidance of teachers

9700 BIOLOGY

9700/31

Paper 31 (Advanced Practical Skills 1), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Mark scheme abbreviations:

; separates marking points

I alternative answers for the same point

R reject

A accept (for answers correctly cued by the question, or by extra guidance)

AW alternative wording (where responses vary more than usual)

underline actual word given must be used by candidate (grammatical variants excepted)

max indicates the maximum number of marks that can be given

ora or reverse argument

MP marking point (with relevant number)

ECF error carried forward

I ignore

ACE Analysis, Conclusions and Evaluation (skills)

MMO Manipulations, Measurement and Observation (skills)

PDO Presentation of Data and Observations (skills)

1	a (i) C	complete Fig. 1.1 to show	w how you will make two further concentrations of copper sulfate solution	[3]	
	[1]	(labels under correct see	quence of beakers)		
		0.0003 AND 0.00003;			
		Additional guidance	Must have • % once		
	[1]	(adds copper sulfate sol	ution, C, to both beakers)		
8 3		1 cm ³ of 0.003(%) or she	own as arrow (from 0.003 beaker) AND 1 cm ³ (to next beaker);		
decisions		Additional guidance	Must have • cm³ once		
MMO			ECF • if MP1 incorrect		
	[1]	(adds (distilled) water/W	, to both beakers)		
		9 cm³ (W/water);			
		Additional guidance	Must have • cm³ once ECF for MP3 if MP1 and MP2 incorrect BUT MUST add previous concentration to third and fourth beakers

MMO collection 3	[1]	records whole seconds (numbers), less than 181, for W / 0 / control AND 4 concentrations;	
		Additional guidance • whole seconds only • no value over 180	
	[1]	(in concentration column) W / 0 / control and then lowest concentration of copper sulfate to highest concentration (minimum of two concentrations, low concentration and then next highest concentration);	west
	[1]	lowest concentration of copper sulfate recorded is shorter time than next (higher) concentration; (mark first column/row of recorded time taken)	
		Additional guidance Can have • minimum of two recorded

	(a) (v)	Describe three other modifications to this investigation would improve the confidence in your results. Do not allow colorimeter. MARK the first FOUR different ideas for any THREE correct answers. Mark with a tick where meet marking point and cross if idea but not correct up to 4.	[3]
	max 3	(dependent variable) 1. replicate; 2. more / closer / shorter time intervals (gaps); (MUST BE less than 15 seconds, but not less than 5 seconds) 3. use of Benedict's solution AND timing to first colour change / clinistix;	
ACE improvements max 3		Additional guidance Can have • repeat or more trials or more readings Ignore • mean	
		 (standardised variables) 4. add a buffer; 5. idea of more accurate instruments e.g. use of graduated pipette or syringe with smaller divisions (1 cm³) e.g. measuring cylinder; 	
		Additional guidance Ignore (for MP5) • use burette	
		6. (independent variable) more / wide / narrow(er) / different / high(er) / low(er) / more concentrations / dilutions / solutions;	
		Additional guidance Do not give mark if ref. to separate syringes use larger volumes put covers or lids on

Additional guidance

If reverse headings then

Do not give mark for PDO recording mark

- show the swapping over of headings on their table then **give marks** as if for the swapped headings.

If no organisation then

give mark only if in same sentence or following sentences

Ignore

tick and cross without a key refs. to size 3-D descriptions such as spherical colours/staining

Can have

differences even if not opposite each other. differences on one side if e.g. use more or –er
