## **CAMBRIDGE INTERNATIONAL EXAMINATIONS**

**International General Certificate of Secondary Education** 

## MARK SCHEME for the May/June 2013 series

## 0625 PHYSICS

0625/63

Paper 6 (Alternative to Practical), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

		<u> </u>	IGCSE – May/June 2013	0625	63	
1	(a)	24 (°C)			[1]	
	(b)	units all correct (symbols or words) times 1, 2, 3, 4, 5, 6 (allow seconds if compatible with heading)				
	(c)	and justif	leter near bottom/no significant difference fication matching statement (words or figures) with r ture <u>change</u> time	mention/implicatio	on of [1] [1]	
	(d)	e.g. stir b	ate precaution: pefore reading / keep thermometer at same depth pexplanation: ure temperature is the same throughout / temperatu	re different at diff	[1] erent depths	
	(e)	any two osame siz	ate precautions relating to comparison of: te/thickness/surface area of beaker lume of water tial temperature (of water)			
		same roo	om temperature / appropriate environmental condition	on	[2] [Total: 9]	
2	(a)		ate precaution (can be written or diagram): reading with eye line perpendicular to rule / use se	t square to ensur	e rule vertical [1]	
	(b)		ed, increasing and with consistent 2 or 3 sig. figs. , 19.5, 30.5, 39.0, 49.5		[1] [1]	
	(c)	T seen a	nd $T^2$ = 1.96, 1.54, 1.18, 0.80, 0.40		[1]	
	(d)	plots cor well judg			[1] [1] [1] [1]	
	(e)		ed to 2 or 3 sig. figs. (expect range (–)0.032 to (–)0 gle method seen <u>on graph</u> , using at least half of line	,	[1]	
	(f)		ate change <u>which improves reliability:</u> eat readings for each length (and take average) / gre	eater no. of oscilla	ations [1]	
					[Total: 10]
